Englands working economy is being killed by alcohol

Almost a fifth of working years of life lost in England in 2018 were due to alcohol consumption, overtaking working years lost to Cancer, the latest data from Public Health England shows.

UK Addiction Treatment group, 2021

How Bad is Our Pandemic Drinking Problem?

The past year has changed alcohol use patterns, especially among women. The impact probably won't be fully known for years.

New York Times, April 21, 2021

Alcohol Problems Severely Undertreated

Researchers have found that although the vast majority of people with alcohol use disorder see their doctors regularly for a range of issues, fewer than one in 10 ever get treatment to help curb

Science Daily, May 17, 2021

Phase 2 study ongoing

Phase 2 clinical study

Randomized placebo – controlled study.

Ongoing at four clinics/hospitals in Sweden

A total of 380 patients will be included

Status June 2021

More than half of the patients have been included in the study (206 out of the 380)

A recent addition of a new clinic/hospital: Malmö/Lund

Recruitment on track

The phase 2 study during the pandemic

Proactivity, flexibility and an intense communication has made a difference

Ads in newspapers, TV and radion to inform about the study.

Dricker du för mycket alkohol?

Vi söker män och kvinnor i åldern 25-70 för att delta i en forskningsstudie där vi vill undersöka om två läkemedel kan minska alkoholintaget hos alkoholberoende personer. Vi söker därför dig som vill sänka din alkoholkonsumtion.
